Implementation Fidelity Log

Purpose

This implementation fidelity tool assesses whether the core components of All4You! are actually implemented. Part 1 of this implementation fidelity tool assesses whether each activity in each class was implemented completely, implemented with changes or not implemented at all. Part 2 of this tool assesses whether other important components were implemented, specifically, components involving audience and setting, implementation schedule, program educators, preparation and pedagogy (teaching strategies).

Scoring Considerations

Part 1.

One simple method of scoring Part 1 is to calculate three percentages:

- *The percentage of all activities that were implemented completely,*
- *The percentage of all activities implemented with changes, and*
- *The percentage of all activities not implemented.*

A review of the changes made or activities not implemented at all may reveal issues to address. For example, if the last activities in each class are commonly skipped, then there may be timing or classroom management issues to address (e.g., the class may be starting late each day, an educator may benefit from coaching on how to move through the activities within the allotted time, or there may be class management issues contributing to timing). If activities requiring special educator skills or comfort with content are commonly modified or skipped, then additional training and support for the educators may be needed.

Part 2.

Even if all the activities are implemented completely, curriculum effectiveness may be affected if other core components or qualities are not implemented (e.g., if the curriculum is implemented with young people who are either too young or too old, or if classroom management issues reduce its effectiveness). Part 2 includes a series of questions to assess these other core components. The simplest approach to assessing Part 2 responses is to examine each item separately, and to use the information to describe the implementation overall. The description should be included with the summary percentages from Part 1 and any pretest-posttest data on the effectiveness of the program on youth.

All4You! Implementation Fidelity Tool

Your name: _____

Name of your organization: _____

Purpose of this Tool:

The purpose of this tool is to assess the fidelity or quality of implementation of the All4You! curriculum.

Directions:

Please complete the appropriate section of Part 1 after you teach each of the lessons in the curriculum for each classroom or group. It is best to complete the form right after teaching a lesson to minimize recall errors. Please complete Part 2 immediately after you have taught all the lessons for a given class or location.

Part 1:

For each of the activities in this lesson, please indicate whether you completed it as described in the curriculum, modified it, or did not complete it. Modifications might include changing the order of the lesson, adding new content or activities, changing how you used the peer leaders, or changing the way you teach something (e.g., making something into a game, using pairs instead of small groups for an activity, or shortening/truncating an activity because of lack of time).

Part 2:

Please complete the questions immediately after you have taught all the lessons you will be teaching.
